

Nama : Farrah diva nazwanda
NIM : 242410101052
Kelas : PWEB A

1. Instal XAMPP terbaru, pastikan PHP 8.2+ tersedia (cek: php --version di terminal)
Di sini saya menggunakan Laragon, kemudian menambahkan laragon ke path

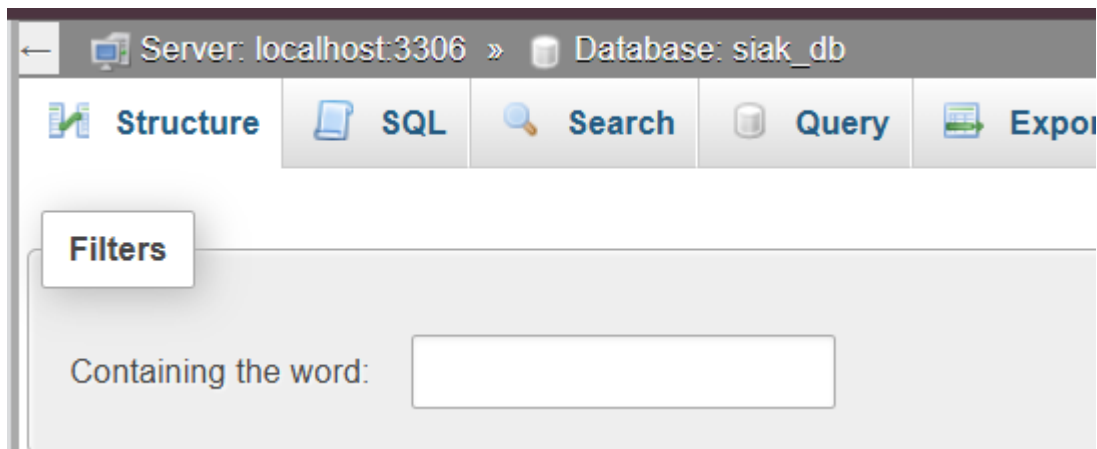

```
C:\Users\farah>php --version
PHP 8.3.30 (cli) (built: Jan 13 2026 22:50:40) (ZTS Visual C++ 2019 x64)
Copyright (c) The PHP Group
Zend Engine v4.3.30, Copyright (c) Zend Technologies
```

2. Instal Composer dari getcomposer.org, verifikasi dengan: composer --version

```
C:\Users\farah>composer --version
Composer version 2.9.4 2026-01-22 14:08:50
PHP version 8.3.30 (C:\laragon\bin\php\php-8.3.30-Win32-vs16-x64\php.exe)
Run the "diagnose" command to get more detailed diagnostics output.
```

3. Buat proyek laravel baru
4. Buat database baru 'siak_db' di phpMyAdmin

5. Konfigurasi file .env: isi DB_DATABASE, DB_USERNAME, DB_PASSWORD sesuai lokal

```
DB_CONNECTION=sqlite
DB_CONNECTION=mysql
DB_HOST=127.0.0.1
DB_PORT=3306
DB_DATABASE=siak_db
DB_USERNAME=root
DB_PASSWORD=
```

6. Jalankan: php artisan key:generate

```
PS C:\laragon\www\PWEB_CONCERTIX\concertix> php
artisan key:generate

[INFO] Application key set successfully.
```

7. Jalankan server: php artisan serve — buka <http://127.0.0.1:8000> di browser

```
PS C:\laragon\www\PWEB_CONCERTIX\concertix> php artisan serve

[INFO] Server running on [http://127.0.0.1:8000].

Press Ctrl+C to stop the server

[INFO] Environment modified. Restarting server...
```

8. Eksplorasi struktur folder, buka setiap folder dan pahami fungsinya
9. Jalankan php artisan route:list dan catat route apa saja yang sudah terdaftar

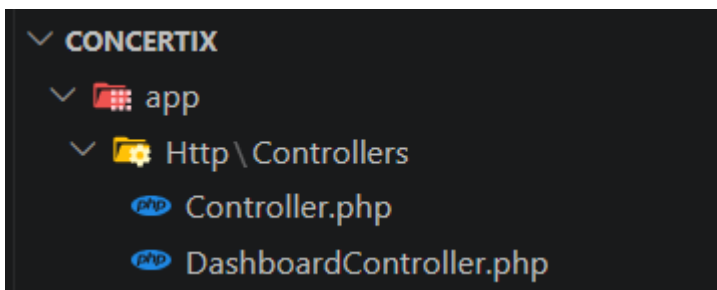

```
PS C:\laragon\www\PWEB_CONCERTIX\concertix> php artisan route:list

GET|HEAD / ..... dashboard > DashboardController@index
GET|HEAD hapus/{id} ..... DashboardController@delete
GET|HEAD storage/{path} storage.local > vendor/laravel/framework/src/Illum...
PUT      storage/{path} storage.local.upload > vendor/laravel/framework/sr...
POST     tambah ..... DashboardController@store
GET|HEAD up vendor/laravel/framework/src/Illuminate/Foundation/Configurati...
POST     update/{id} ..... DashboardController@update

Showing [7] routes
```

AKTIVITAS MANDIRI 2 — Membuat Routing & Controller Dashboard

1. Buat Controller DashboardController: `php artisan make:controller DashboardController`

2. Tambahkan method `index()` yang mengembalikan view('dashboard') di DashboardController

```
class DashboardController extends Controller
{
    public function index(){
        $events = Event::all();
        return view('dashboard', compact('events'));
    }
}
```

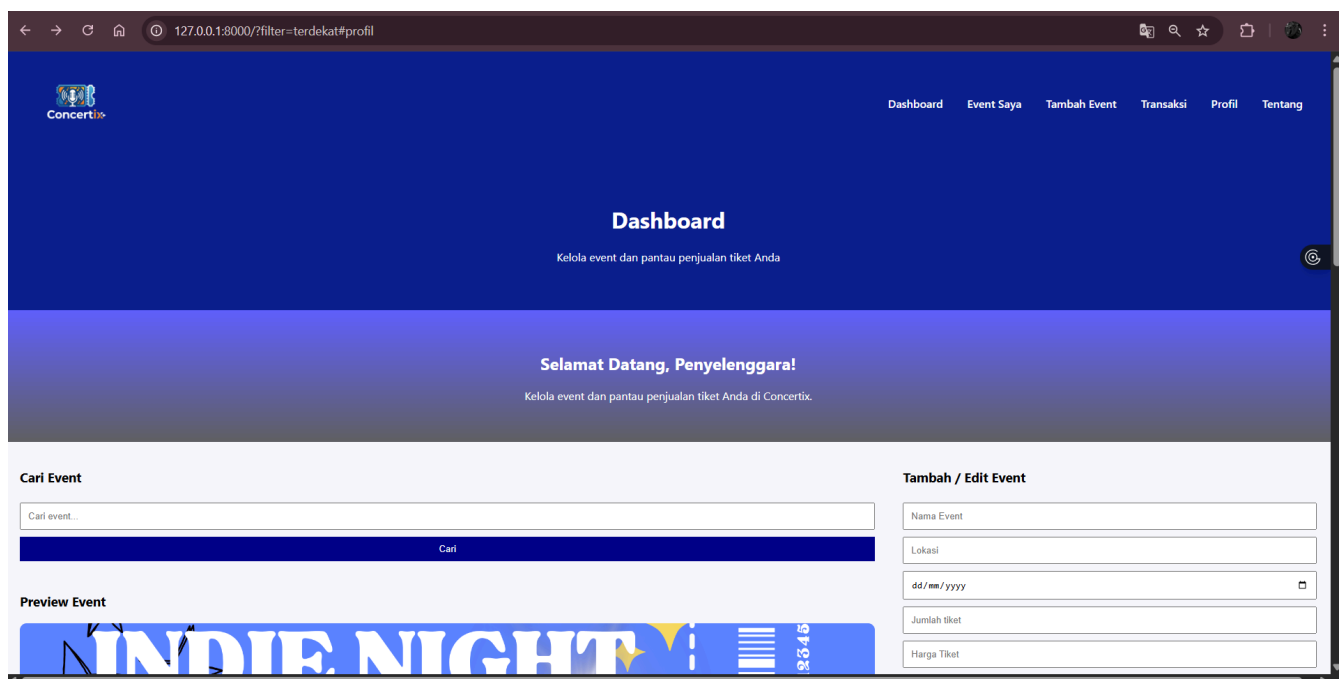

3. Daftarkan route di routes/web.php: `Route::get('/dashboard', [DashboardController::class, 'index'])->name('dashboard')`

```
routes > web.php
1  <?php
2
3  use Illuminate\Support\Facades\Route;
4  use App\Http\Controllers\DashboardController;
5
6  Route::get('/', [DashboardController::class, 'index'])->name('dashboard');
7
```

4. Buat file view sementara resources/views/dashboard.blade.php berisi `<h1>Dashboard SIAK</h1>`

```
ents_table.php | dashboard.blade.php X | style.css | script.js
resources > views > dashboard.blade.php > html > body > nav.navbar > di
2   <html>
8   <body>
23  <!-- HEADER -->
26  <header id="dashboard" class="header">
27      <h1>Dashboard</h1>
28      <p>Kelola event dan pantau penjualan tiket Anda</p>
29  </header>
30
```

5. Akses <http://127.0.0.1:8000/dashboard> di browser — pastikan tampil

6. Buat route `/tentang` dengan `Route::view('/tentang', 'tentang')` dan buat view-nya

```
Route::get('/tentang', function () {
    return view('tentang');
});
```

```
resources > views >  tentang.blade.php >  html
1  <!DOCTYPE html>
2  <html>
3  <head>
4  |   <title>Tentang</title>
5  </head>
6  <body>
7
8  <h1>Tentang Kami</h1>
9  <p>Ini adalah halaman tentang aplikasi Concertix.</p>
10
11 </body>
12 </html>
13
```

7. Jalankan php artisan route:list — amati semua route yang terdaftar

```
PS C:\laragon\www\PWEB_CONCERTIX\concertix> php artisan route:list

GET|HEAD / ..... dashboard > DashboardController@index
GET|HEAD hapus/{id} ..... DashboardController@delete
GET|HEAD storage/{path} storage.local > vendor/laravel/framework/src/Illum..
PUT      storage/{path} storage.local.upload > vendor/laravel/framework/sr...
POST     tambah ..... DashboardController@store
GET|HEAD tentang ..... routes/web.php:7
GET|HEAD up vendor/laravel/framework/src/Illuminate/Foundation/Configurati...
POST     update/{id} ..... DashboardController@update

Showing [8] routes
```

8. Coba buat Route::get('/hitung/{a}/{b}', fn(\$a, \$b) => \$a + \$b) dan akses /hitung/10/25

```
Route::get('/hitung/{a}/{b}', function ($a, $b) {
    return $a + $b;
});
```
